

Pre-Requisites of Project

Team ID	PNT2022TMID12226
Project Name	Project-Machine Learning-Based Predictive Analytics For Aircraft Engine

To develop this project we need to installed following software:

1.Anaconda

A screenshot of an Anaconda Prompt terminal window. The window title is "Anaconda Prompt (Anaconda3)". The terminal shows the command `((base) C:\Users\Arun>conda --version` and the output `conda 4.10.1`. The prompt then returns to `((base) C:\Users\Arun>`. The Windows taskbar is visible at the bottom with various application icons and a system tray showing the date and time as 10-11-2022, 16:16.

Packages:

1. Sklearn

2. NumPy

3. Pandas

4. Matplotlib

5. Flask

We have referred the given videos and gain the required knowledge provided in the Dashboard.
